Journal of Human Sciences and Extension

The Journal of Human Sciences and Extension is a peer-reviewed, open-access, online journal focused on disseminating knowledge and information to academicians, educators, and practitioners. Topics addressed include human development (e.g., early care and education, youth development); family studies; agricultural education; leadership development; extension; health and wellness; apparel, textiles, and merchandising; agricultural economics; nutrition and dietetics; family resource management; and program planning and evaluation. The journal seeks to bridge research and practice, thus all manuscripts must give attention to practical implications of the work. The journal is sponsored by the School of Human Sciences at Mississippi State University and is published three times a year.
